Part C Intensive: Talks dan Mini Lectures

Jumlah soal: 30 • Durasi saran: 30 menit

Audio: part-c-talk-01

Transcript

Today we will look at honeybees. Researchers explain that they carry pollen between flowers. This can support food production. They also plant diverse flowering species. For these reasons, local programs increasingly encourage people to protect and support honeybees.

1. What is the talk mainly about?

Jawaban: A. The importance of honeybees

Pembahasan: Seluruh talk membahas manfaat dan dukungan terhadap honeybees.

2. According to the speaker, what can honeybees do?

Jawaban: B. Support food production

Pembahasan: Talk menyebut manfaat utama: support food production.

3. What does the speaker mention as an additional point?

Jawaban: A. Plant diverse flowering species

Pembahasan: Poin tambahan yang disebut adalah: plant diverse flowering species.

Audio: part-c-talk-02

Transcript

Today we will look at public libraries. Researchers explain that they share books and digital resources. This can expand access to information. They also offer community learning programs. For these reasons, local programs increasingly encourage people to protect and support public libraries.

4. What is the talk mainly about?

Jawaban: A. The importance of public libraries

Pembahasan: Seluruh talk membahas manfaat dan dukungan terhadap public libraries.

5. According to the speaker, what can public libraries do?

Jawaban: B. Expand access to information

Pembahasan: Talk menyebut manfaat utama: expand access to information.

6. What does the speaker mention as an additional point?

Jawaban: A. Offer community learning programs

Pembahasan: Poin tambahan yang disebut adalah: offer community learning programs.

Audio: part-c-talk-03

Transcript

Today we will look at wetlands. Researchers explain that they absorb excess rainwater. This can reduce flood risk. They also provide habitat for wildlife. For these reasons, local programs increasingly encourage people to protect and support wetlands.

7. What is the talk mainly about?

Jawaban: A. The importance of wetlands

Pembahasan: Seluruh talk membahas manfaat dan dukungan terhadap wetlands.

8. According to the speaker, what can wetlands do?

Jawaban: B. Reduce flood risk

Pembahasan: Talk menyebut manfaat utama: reduce flood risk.

9. What does the speaker mention as an additional point?

Jawaban: A. Provide habitat for wildlife

Pembahasan: Poin tambahan yang disebut adalah: provide habitat for wildlife.

Audio: part-c-talk-04

Transcript

Today we will look at recycling aluminum. Researchers explain that they uses less energy than producing new metal.

This can save energy. They also separate clean cans. For these reasons, local programs increasingly encourage people to protect and support recycling aluminum.

10. What is the talk mainly about?

Jawaban: A. The importance of recycling aluminum

Pembahasan: Seluruh talk membahas manfaat dan dukungan terhadap recycling aluminum.

11. According to the speaker, what can recycling aluminum do?
